Donald H. Ford, Ph.D.
Council for Tobacco Research
900 Third Avenue
New York, N.Y. 10022

Dear Dr. Ford,

It is with sincere appreciation that I thank you for your efforts on our behalf to have The Council For Tobacco Research support our minisymposium on "Brain Nicotinic Receptor Mediation of Tolerance and Dependence" at the Winter Conference on Brain Research.

As I am sure you know participation in this program is very competitive, and I am pleased that our program has been selected for the 1989 WCBR. I believe that inclusion of scientists of the stature of Leo Abood, Ken Kellar and Jack Henningfield was a primary factor in the acceptance of this program. I believe that we will offer our colleagues at the WCBR an exciting program on the neuroscience of nicotine. I am sure that support of this program by the Council For Tobacco Research will be rewarded by the dissemination of an excellent program to the neuroscience community.

With best regards.

Yours sincerely,

Glen R. Van Loon, M.D., Ph.D., F.C.R.P.(C)
Professor of Medicine and Pharmacology
